

## Applications Now Open For 2026

We are finishing up our inaugural year of the LifeFlight of Maine Mentorship Program and are excited to open up applications for our 2026 cohort. We are looking for dedicated and driven RNs and Paramedics who are interested in learning more about LifeFlight and the skills needed to become a member of our clinical team.

### About the Program

The program spans the 2026 calendar year, offering quarterly in-person education days, one-on-one mentorship with a current LifeFlight crew member during and beyond the length of the program, and the opportunity to accompany flight crews on clinical observation shifts.

Education days cover various topics and skills related to critical care transport. Possible topics include EKG interpretation, clinical case reviews, airway management, lab interpretation and treatment, and an introduction to LifeFlight protocols and procedures.

With current LifeFlight clinicians serving as mentors, the goal is to build a relationship in which mentees can share clinical experiences, ask questions, and obtain guidance to further clinical expertise in preparation for future employment opportunities with LifeFlight of Maine.

## Requirements for Application

**Applications are due by October 31, 2025. Interviews with potential candidates will be held in November, and applicants will be notified of their acceptance to the program by early December.**

All applicants must meet the following requirements in order to take part in the program:

- Hold a current Maine Paramedic or RN license
- Have a minimum of two years of experience in your field (ex: busy 911 service, critical care ICU setting)
- Hold an ACLS Certification
- Be able to attend at least 50% of meetings with both the mentor and quarterly requirements
- Be actively working towards certifications such as:
  - Certified Critical Care Registered Nurse (CCRN)
  - Certified Flight Registered Nurse (CFRN)
  - Critical Care Emergency Medical Transport Program (CCEMT-P)
  - Certified Flight Paramedic (FP-C)
